Vacuum Chamber

All vacuum chambers manufactured by us are tested for leaks, can be adapted to technical requirements, can be equipped with the necessary accessories.

Super Q Tech is a one-stop supplier for all stages of the process: assistance in finding the right solution for your application, design, manufacture, quality assurance, installation and on-site service.

Features:

1. Available in many shapes
2. 304 stainless steel body and door
3. Vacuum performance down to 1×10^{-6} Torr with the appropriate vacuum pumps
4. Available in standard NW or CF ports, flanges and related accessories.
5. Can be equipped with the necessary accessories inside the chamber.
6. Helium leak tested for quality assurance.

Product Name	Low vacuum/ high vacuum/ ultra high vacuum vacuum chamber
Material	stainless steel 304SS, 316SS
Finish	sandblasted, electropolish, manual polish
Used	high vacuum applications including deposition, atmospheric testing and space simulation.
Shape	Spherical, Cylindrical, Box and rectangular, Bell jar, D-shape, Custom

FAQ:

For calculating the cost of customized vacuum chamber, we need to confirm:

1. Vacuum Pressure/level
2. Working temperature
3. chamber dimension & thickness
4. Port Specifications (qty and flange type)
5. Viewport/ Observation window
6. Special requirements etc.
